

DONORS DELIVERING FOR SRHR

REPORT 2023

Tracking OECD Donor Funding for Sexual and Reproductive Health and Rights

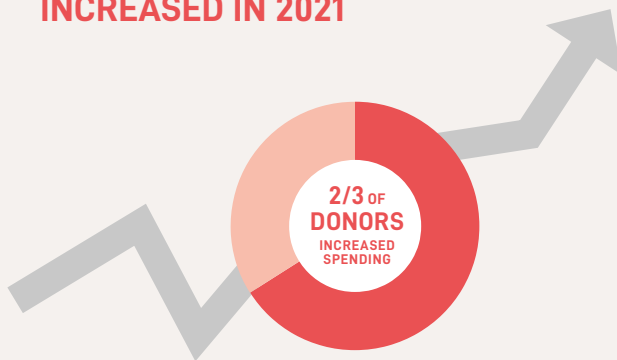

This is the executive summary of the 2023 Donors Delivering for SRHR report, available at: www.donorsdelivering.report

TRACKING DONOR SUPPORT TO SRHR AS PART OF THEIR ODA

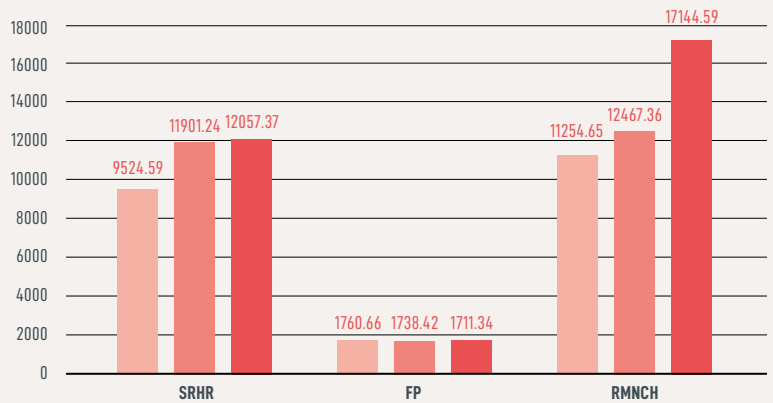

The Donors Delivering for SRHR Report is an annual publication about the **state of global funding for SRHR, RMNCH, and FP**. It tracks the total funding support and the share of ODA that OECD DAC donors dedicate to these areas. The findings of the current report are based on ODA disbursements in 2021 as the most recent confirmed data available.

OVERALL SRHR SUPPORT INCREASED IN 2021

After a significant increase from 2019 to 2020, **donors' total SRHR funding continued to increase in 2021**, albeit to a lesser extent. The joint SRHR funding of all OECD DAC donors as a percentage of their total ODA also increased significantly from 2019 to 2020. The percentage decreased again in 2021 because the **increase of all OECD DAC donors' ODA was considerably higher than the increase of SRHR disbursements**.

SRHR, FP and RMNCH total disbursements trend for all OECD DAC donors in million USD, 2020 constant prices, for 2019 2020 2021

ROOM FOR IMPROVEMENT

Many donors failed to prioritise SRHR in their ODA in 2021.

11/30 donors spent < 2% of their ODA on SRHR.

Despite the increase of donors' total funding towards SRHR, the sometimes considerable amounts of **SRHR funding often only represent a small share of donors' total ODA**. Just as in previous years, especially some of the larger donors such as the EU Institutions, Italy, Germany or France fail to prioritise SRHR funding in their international cooperation, leaving room for improvement. Italy and the EU spent 1.76% and 1.92% respectively, while Germany and France allocated just slightly over 2% of their ODA to SRHR.

ONLY 6.2% OF ALL ODA WENT TO SRHR

SRHR, FP and RMNCH as percentage of ODA for all OECD DAC donors - trend 2019-2021

SRHR CHAMPIONS

A number of countries truly champion SRHR in their international collaboration: **the US was the largest SRHR donor by far** (both in absolute and relative terms), with over 16% of its ODA spent on SRHR. Other **SRHR champions include Canada, the Netherlands, Sweden, Iceland, Norway and Luxembourg**.
